QR CODE INSTRUCTIONS: DIGITAL SIGN-IN

The digital registration form is the preferred way for volunteers to sign up to your event. Ensuring we have accurate details for all the volunteers is essential for contact tracing if the need should arise.

To use the digital sign-in method at your Clean Up:

1. Prior to the Clean Up, you need to handwrite your event number on this QR code sheet below (you can find your event number in your site registration confirmation email or by logging in to your event page at www.cleanupaustraliaday.org.au).
2. Volunteers simply scan the QR code using their phone camera (*not the usual government app!*) and then follow the prompts. Once they have filled in their details and clicked 'Next', they're done!
3. Participants are encouraged to sign-in on their own devices. If for any reason a volunteer's phone cannot access the Digital Registration Form, their details can be filled in from another device, ensuring that social distance is maintained. Up to 8 people can sign-in from one device at any one time. If you need to sign-in more than 8 people on the one device, you will need to submit the form for the first 8 people, then rescan the QR code and repeat the process until all volunteers are signed in.
4. **Make sure you use your phone's camera, not your state government app to sign in.....**
